Profile

Hello! I'm Nasser, a passionate technology professional who began my journey in the world of

Information Technology (IT) and evolved into a highly versatile and skilled software developer.

My career began in the IT sector, where I worked diligently to ensure that my company's systems and technology infrastructure operated efficiently. However, my curiosity and hunger for learning led me to explore the exciting field of programming within the same organization.

With dedication and determination, I embarked on a learning journey that allowed me to master various languages and technologies. I am currently proficient in C#, React, Node.js, Next.js, and Nest.js, and I am continually expanding my knowledge and skills to stay updated with the latest technological trends.

Throughout my journey, I have had the opportunity to contribute to exciting and challenging projects, where I could apply my technical knowledge to create innovative and effective solutions. Programming is not just my profession but also my passion, and I am always seeking new ways to tackle challenges and achieve outstanding results.

I am excited to continue growing professionally, collaborating with talented colleagues, and contributing to my company's success. If you're interested in discussing collaboration opportunities or exchanging ideas about technology, please feel free to reach out to me. Let's connect and explore together the limitless possibilities of the tech world!

Employment History

Developer Senior NodeJs, Next, Angular, ASP.NET, PROVER, Rio de Janeiro

FEBRUARY 2021 — PRESENT

Security and JWT authentication area.

Code rewriting primarily focused on JavaScript, such as NodeJs, NestJs, and Angular.
